

Topi-CLICK
Troche-CLICK™

- ✓ Each 0.90 mL cavity allows for customizable dosing with scored halves and quarters
- ✓ Easy-press buttons to eject full troches
- ✓ CLICK locking mechanism eliminates accidental opening
- ✓ Translucent tray allows for easy view of doses remaining
- ✓ Available in 4 colors to aid in medication differentiation

Patient Use Instructions

STEP 1:
Remove troche tray from protective cover.

STEP 2:
Use Easy-press buttons to eject troche lozenge.

Dispense troche lozenge dosage as directed by your physician or pharmacist.

STEP 3:
Slide protective cover over tray to activate the CLICK locking mechanism.

Topi-CLICK® Troche-CLICK™ is Available in 4 Colors

Multiple Color Options make it easy for patients to distinguish between their medications.
