

TOPI-CLICK
Troche-CLICK

- ✓ Flexible Easy-press Buttons™ to eject full troches.
- ✓ CLICK locking mechanism eliminates accidental opening.
- ✓ Translucent tray allows for easy view of doses remaining.
- ✓ Available in 4 colors to aid in medication differentiation.

Flexible Easy-press Buttons™
make it easy to eject troches.

Patient Use Instructions

STEP 1:
Remove troche tray from protective cover.

STEP 2:
Use Easy-press Buttons™ to eject troche lozenge. Dispense troche lozenge dosage as directed by your physician or pharmacist.

STEP 3:
Slide protective cover over tray to activate the CLICK locking mechanism.

Topi-CLICK® Troche-CLICK™ is Available in 4 Colors

Multiple Color Options make it easy for patients to distinguish between their medications.
