

### **Introducing the Topi-CLICK® 35 \*Child Resistant Topical Dosing Dispenser**

Topi-CLICK is proud to announce the launch of the Topi-CLICK 35 Child Resistant topical dosing dispenser, providing pharmacies with an advanced solution for dispensing topical medications with enhanced safety features. Building upon the reliable performance of the standard Topi-CLICK 35, this new dispenser incorporates certified child-resistant design while maintaining accurate dosing and ease of use for patients.

The Topi-CLICK 35 Child Resistant dispenser offers a 35 mL capacity for topical preparations, ensuring precise volumetric dosing and targeted application. Its integrated applicator design minimizes the risk of improper dosing and cross-contamination through hands-free application.

#### **Key Features and Benefits for Pharmacies and Pharmacists:**

- **Certified Child Resistance:** Meets\* U.S. Consumer Product Safety Commission (CPSC) criteria for child-resistance under 16 CFR §1700.20, providing added safety and peace of mind.
- **Push-and-Turn Security Cap:** Features a familiar, intuitive push-down-and-turn locking cap, certified to be difficult for children to open while remaining easy for adult patients.
- **DoseLock™ Base with Integrated Safety Tabs:** The pinch-grip dispensing mechanism requires coordinated adult-level dexterity, preventing unintended operation by children.
- **Two-Stage Access Protection:** Medication is inaccessible unless both the locking cap is removed and the pinch-grip base is actively engaged, offering layered safety.
- **Built-In User Guidance:** Clear instructional text and directional arrows printed on the cap and base ensure easy and reliable operation for adult users.
- **Appeals to Safety, Not to Children:** Universal gray cap and base reduce visual appeal to children, with multiple cap color options for subtle medication differentiation.

- **Accurate Dosing:** Ensures patients receive the correct dosage, leading to consistent medication adherence and on-time refill requests.
- **Hands-Free Application:** Built-in applicator reduces the risk of cross-contamination.
- **Medication Differentiation:** Multiple applicator color options assist in distinguishing between different medications.
- **Audible, Visual, and Tactile Clicks:** Provide clear feedback to patients, confirming accurate dosing.
- **Refill Badge™:** Prompts patients to refill medications on time.

### **About Topi-CLICK**

Topi-CLICK by TEAM Technologies manufactures topical metered dosing applicators for human and veterinary patients that are accurate, easy-to-use and reliable. Since launching the revolutionary topical applicator in 2007, Topi-CLICK has continued to be a pacesetter in the healthcare industry, providing solutions for efficient and accurate dosing. Patients, doctors and compounding pharmacists have come to rely on Topi-CLICK dosing applicators for their patients and customers.
